

PIONEER TECHNICAL SERVICES, INC.
Wetland Specialist

Position Description:

Pioneer Technical Services is currently seeking a Wetland Specialist/Environmental Scientist to assist with wetland delineation, mapping and mitigation plans for projects in Montana, Colorado and Wyoming. Candidates must have experience with wetlands issues that include performing delineations, analyzing wetland functions and values, analyzing wetland impacts, and recommending wetland mitigation and restoration in accordance with USACE protocol. Typical tasks include baseline assessments of riparian and wetland systems associated with streams, rivers, lakes, and other aquatic habitats to provide a measure of cumulative chemical, physical, and biological impacts to riparian ecosystems within the watershed. A working knowledge of GIS systems as well as experience using the Federal Manual for Identifying and Delineating Jurisdictional Wetlands and the Corps of Engineers Wetlands Delineation Manual 1987 is essential. Education requirements are a BA or BS in Biology, Botany, Environmental Studies, or related field and a minimum of 5 years experience identifying wetland boundaries and developing Wetland/Water Delineation reports. Pioneer is a Montana based employee owned company that offers a competitive salary, benefits and incentive package. Pioneer Technical Services provides equal employment opportunities to all applicants. Inquiries can be sent to P.O. Box 3445, Butte, MT 59702 or to pioneer@pioneer-technical.com.
